BULBGROWERS

FARM "DE LINT"

KLIPFONTEIN ROAD

P.O. MILNER C.P.

(SOUTH AFRICA)

1924—1925

Dear Sirs,—

This is the first time we are offering our collection of cultivated Cape bulbs to the trade, including the most rare and valuable native Gladioli, which are excellent for hybridising purposes and lately much sought after by American Gladioli breeders. Indeed, Gladioli breeders have here an opportunity worth their special attention.

Many of you will, of course, visit the South African gardens at the Wembley Exhibition, and will no doubt see many fine specimens of South African bulbs, plants and flowering shrubs. If you find anything which you would like to have, send us word and we will quote you our lowest prices by return post.

We have a fair collection of Native Gladioli varieties, many of which are sweet scented, like Hyacinths and Lily of the Valley. By using our sweet scented Gladioli for breeding, you may win a small fortune some day by breeding a sweet scented hybrid. Besides their scent they are worth having for their unique colours, specially the Brown Grandes, no such colour existing in the present hybrids.

By ordering bulbs, full description and instructions will be enclosed when sending same regarding soil, etc.

Hoping to be favoured with your valued orders, which will have our special attention,

Yours faithfully,

D. J. KRUIJFF & CO., Bulb Farm "De Lint,"

P.O. Milner (Cape), South Africa.

TERMS OF SALE:

Quotations are without engagement and subject to crop.

Prices are quoted f.o.b. Cape Town, nett, cheque with order.

Packing will be charged for at cost-price.

Nerine. These are worth your special attention, as they consist of some twenty different shades varying from red to scarlet, pink, orange and even mauve. To get good flowering results, place, after leaves died off, a thin layer of straw or dry leaves on top of the soil and set fire to it; in this way you will secure perfect blooms every season. Nerines are perfect blooms for bouquet-making and decoration. Flowers cut in buds last a fortnight in water	20/-	160/-
Ornithogalum Thyrsoides: The famous Cape Chinkerichee. Pure white flowers with brownish centre, early variety. Flowers last for months in water. Thousands of boxes of these flowers are yearly sent from here to European countries and America	10/-	75/-
